### **LEVELTEK INTERNATIONAL WINS EXPORT AWARDS**

**Benwood, WV, August 3, 2009** – Leveltek International has won a pair of export awards from the U.S. Department of Commerce and the West Virginia Governor’s Office.

“We’re pleased that the U.S. Department of Commerce and the State of West Virginia have acknowledged the usefulness of our stretch leveling technology,” says Nick Yavelak, president of Leveltek International. “As the future of steel processing worldwide continues moving toward specialized applications, we’re prepared to take advantage of opportunities to meet processors’ demanding specifications.”

Leveltek International designs, manufacturers and installs stretch leveling systems for retrofit and new light- to heavy-gauge cut-to-length and coil-to-coil lines. The company was established in 1997 and has installations worldwide. Leveltek International is headquartered in Benwood, WV. For more information, call Leveltek International at **304.232.8530**, e-mail [sales@leveltekint.com](mailto:sales@leveltekint.com) or visit [www.leveltekint.com](http://www.leveltekint.com)
